Freelance

AI Model Trainer | Outlier   **Nov 2024 - Present**
- Contributed to training and refining advanced **Generative AI models** by providing **coding expertise** for AI training projects.
- Worked remotely from India, collaborating with a **global team** of subject matter experts to enhance AI capabilities through **expert's** feedback and testing.
- Evaluating, ranking and improve the response given by the generative artificial intelligence to ensure **accuracy** and **quality**.

Projects

ShaRideX / *MERN Stack, Ride-Sharing Platform*   **Feb 2025 - Mar 2025**
- ShaRideX is a robust ride-sharing platform offering secure user and captain authentication, dynamic user interfaces, and seamless front and backend integration.
- Key features include an intuitive location search panel, integration with Google Maps API for suggestions, coordinates, ride estimations, distance-time calculations, and ride management functionality.
- Real-time ride creation and a user-friendly design, ShaRideX delivers an efficient and modern solution tailored for needs.
- GitHub Repository Link: *https://github.com/SmitMistry01/ShaRideX.git*

Agri-Link / *ReactJS (WPA), Tailwind CSS, Firebase*   **Sept 2024**
- Created a direct access marketplace connecting farmers with buyers and suppliers, featuring real-time chat and product listing functionalities to improve market access
- Auction System: Suppliers can place bids, which are visible to buyers. Buyers, in turn, can place their bids, visible to the suppliers, creating an interactive bidding environment where top bidders with their details are provided.
- Additional functionalities such as adding the items for auction and receive weather and government schemes updates.
- GitHub Repository Link: *https://github.com/SmitMistry01/Agri-Link.git*

URL Shortener / *NodeJS, JWT, Session and Cookies*   **Oct 2023**
- User Registration and Login: Secure authentication using JWT tokens and cookies, with protected routes that ensure only authenticated users can shorten URLs.
- URL Shortening & Redirection: Allows users to shorten URLs and provides custom redirection.
- Used to make links more shareable which can help content get more exposure, attractive and professional.
- GitHub Repository Link: *https://github.com/SmitMistry01/url_shortner_node.git*

Certifications

IBM DevOps and Software Engineering   **Nov 2024**
Coursera - Link

Cloud Computing   **August 2024**
NPTEL - Link

Dynamic Programming, Greedy Algorithm   **March 2024**
University of Colorado Boulder - Link

Technical Skills

Languages: C, C++, JavaScript, Java, Typescript

Frontend Technologies: HTML, CSS, React, Tailwind CSS

Backend Technologies: NodeJS, Express, RESTful APIs

Database Management: MySQL, MongoDB, Firebase

DevOps: AWS, Docker, Docker Compose, Kubernetes, Git

Soft Skills: Teamwork, Responsiveness, Leadership, Project Management, Good listener

Education

Lovely Professional University Punjab   **2022 – 2026**
Computer Science and Engineering — CGPA: 7.70   *Jalandhar, Punjab*

Rao Junior College of Science (RJCS)   **2021**
12th HSC with Science — Percentage: 91.00%   *Mumbai, Maharashtra*

ST. Paul's High School   **2019**
10th SSC with Science — Percentage: 82.80%   *Mumbai, Maharashtra*
